“School Administration & ERP System”

“School Administration & ERP System: EduSoft”

Lemon Technologies Pvt. Ltd. offers "EduSoft", complete school management software that is exactly made to serve the school management system in today's era. EduSoft is more than just another technology solution; it is an educational system that covers major entities of school and eventually improves the way in which the school is managed. It is based on .Net Framework 3.5 and SQL 2008. Apart from several modules, Lemon have incorporated a unique module for the same, called as the Students Operation Module(SOM) which is specially designed to integrate interaction between students, parents and teachers that makes EduSoft define education in a new way.

In a nutshell it is an interactive platform for all the entities of school such as Teachers, Management, Finance dept, HR, Transportation, Students, Parents, Library, etc.
